AGIREVERSE | REVERSE LOGISTICS SOLUTIONS

AGIReverse is a full service provider of technically driven reverse logistics solutions for OEMs, contract manufacturers, retailers, and service organizations in the high-tech consumer electronics industry. From asset acquisition to redeployment, **AGIReverse** has developed a series of best-of-breed value recovery solutions aimed at maximizing the return on our partners returned, defective, excess, and end-of-life inventories.

AGIReverse Solutions Include:

- Advanced Component-level Testing, Repair, Refurbishment
- Returns Management and Redeployment
- Surplus Parts Management and Redeployment
- End-of-Life Support
- Environmentally Responsible Scrapping

AGIReverse Specializes In:

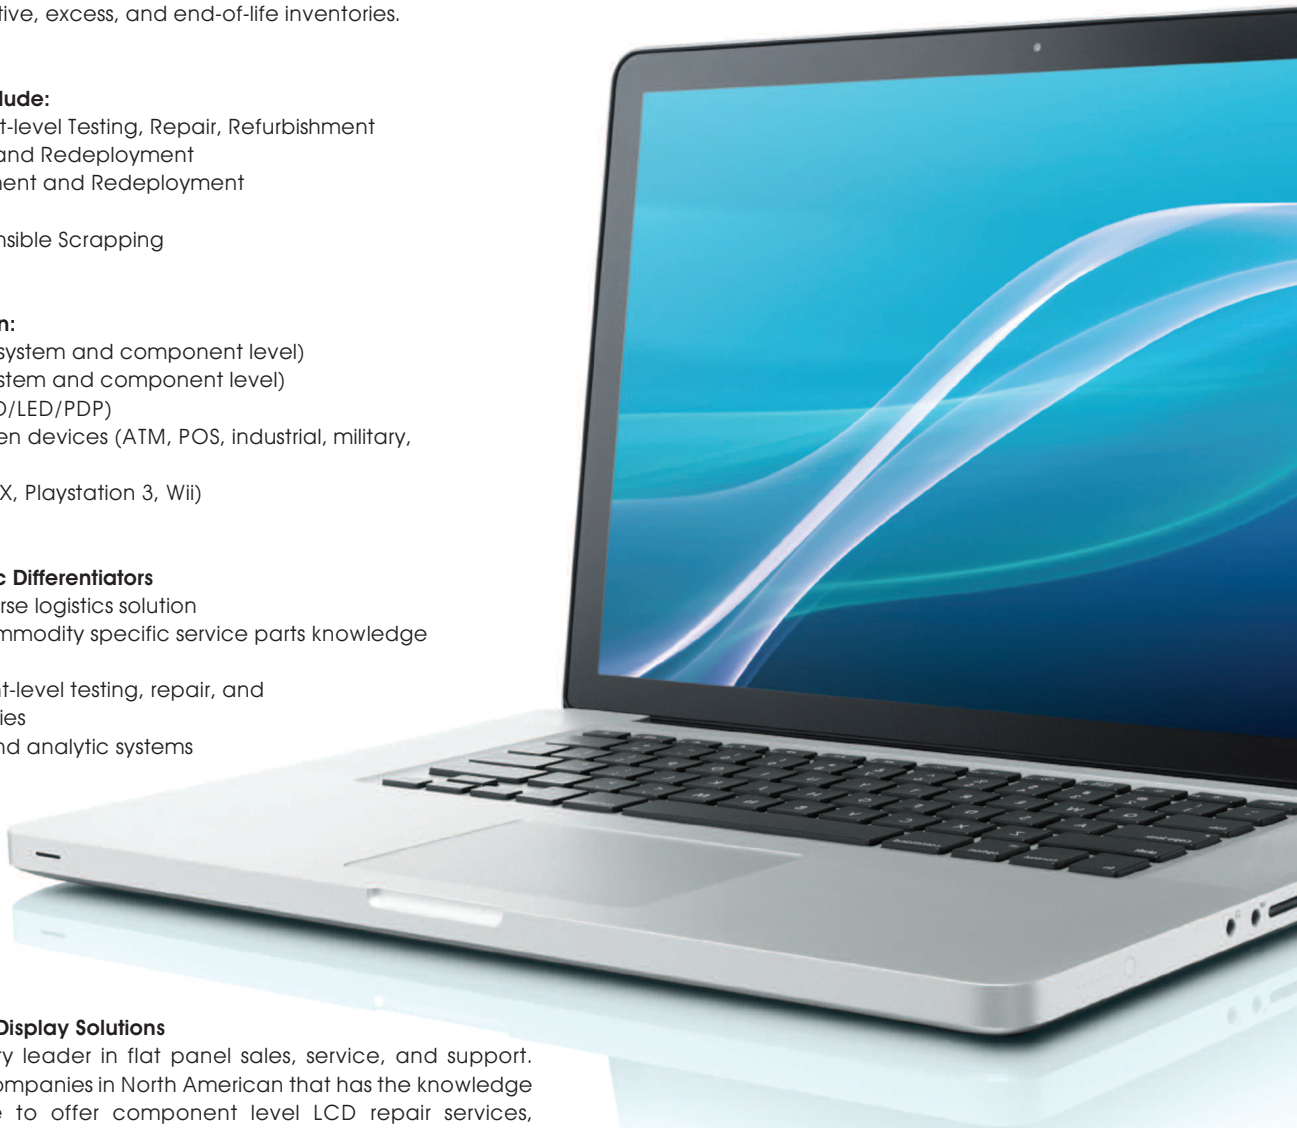

- Notebook computers (system and component level)
- Desktop computers (system and component level)
- Flat panel displays (LCD/LED/PDP)
- High-value display-driven devices (ATM, POS, industrial, military, medical devices)
- Gaming consoles (XBOX, Playstation 3, Wii)

AGIReverse Key Strategic Differentiators

- A *true* end-to-end reverse logistics solution
- Extensive OEM and commodity specific service parts knowledge and network
- Advanced, component-level testing, repair, and refurbishment capabilities
- World-class software and analytic systems

AGIReverse | Flat Panel Display Solutions

AGIReverse is an industry leader in flat panel sales, service, and support. We are one of the few companies in North America that has the knowledge and technical aptitude to offer component level LCD repair services, including high-level, cost efficient, LCP/PDP television repair.

STATE-OF-THE-ART FACILITIES | LOGISTICS

State-of-the-Art Facilities

AGIReverse takes pride in being one of the few reverse logistics providers with component-level testing and repair capabilities. Our ESD-controlled production facilities are equipped some of the most advanced equipment including: Class 1000 Clean Rooms, LDC and PDP test/repair fixtures, Tape-Automated Bonding (TAB) machines, and BGA inspection and rework machines.

Logistics Network

Having an agile, yet, efficient logistics network is one of the most vital components of the value recovery process. AGIReverse works closely with its clients to identify and design logistics solutions that compliment each of their unique needs.

Our Logistics Services Include

- Network design and implementation
- Packing/container design
- Asset acquisition and recovery
- Shipment consolidation
- Warehousing
- Inventory management
- Forward transportation

FACILITIES

- Pennsylvania (Corporate) 84,000 sq. ft.
